

PRODUCT SLIDER

User Guide

MAGECAPTAIN
<https://magecaptain.com/>
support@magecaptain.com

Installation Guide:

1. Step 1:

- Download Extension and place inside your Project root/app/code/

2. Step 2:

In magento root directory run the following commands using the command line:

- php bin/magento setup:upgrade
- php bin/magento setup:static-content:deploy

3. Step 3:

To access this extension in your site domain, you must need to register your domain.

You can check reference here for this:

<https://magecaptain.com/blog/post/how-to-generate-license-for-purchased-extension/>

4. Step 4:

- Login to Magento admin and enable extension at the MageCaptain Product Slider => Settings => MageCaptain => Attribute Rule Based Slider => General Setting => Enable

5. Step 5:

- That's it, you're done.

How to Use:

1 Step 1:

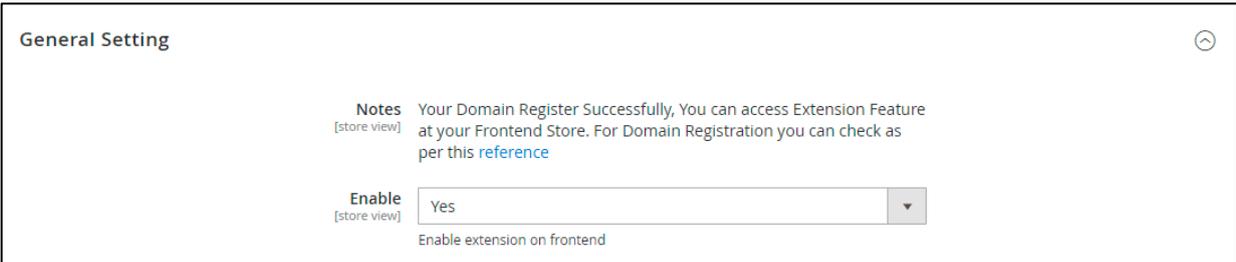

Set Attribute Rule Based Slider Configuration:

MageCaptain Product Slider => Settings => MageCaptain => Attribute

Rule Based Slider => General Setting

- **General Setting:**

You can Enable/Disable Extension on frontend

The screenshot shows a configuration panel titled "General Setting" with a close button in the top right corner. It contains a "Notes" section with the text: "Your Domain Register Successfully, You can access Extension Feature at your Frontend Store. For Domain Registration you can check as per this [reference](#)". Below the notes is an "Enable" section with a dropdown menu currently set to "Yes" and a label "Enable extension on frontend" below it.

- **Default Product Attribute:**

You can Display Following Product Attributes in Product Slider Frontend:

- Enable/Disable Image
- Enable/Disable Title
- Enable/Disable Price
- Enable/Disable Review Summary
- Enable/Disable Cart
- Enable/Disable Wish list
- Enable/Disable Compare

Default Product Attribute

Display Cart
[store view] Yes

Display add to cart button on frontend

Display Wishlist
[store view] Yes

Display add to wish list on frontend

Display Compare
[store view] Yes

Display add to compare on frontend

2 Step 2:

Go To MageCaptain Product Slider => Product Slider => Add New Slider

First Tab: Rule Information

You can set

- Slider Title
- Store View Block
- Status

The screenshot shows the 'New Slider' form in the MageCaptain Product Slider interface. The form is titled 'New Slider' and has a search icon, a notification bell, and a user profile 'admin' in the top right corner. Below the title bar, there are navigation buttons: 'Back', 'Reset', 'Save and Continue Edit', and a red 'Save' button. A yellow notification banner at the top left says 'It's time to change your password.' The form is divided into two main sections: 'MAGECAPTAIN PRODUCT SLIDER' and 'General Information'. The 'MAGECAPTAIN PRODUCT SLIDER' section has a sidebar with 'Rule Information' (selected), 'Conditions', and 'Advance options'. The 'General Information' section contains the following fields:

- Slider Title ***: A text input field.
- Store Views ***: A dropdown menu with the following options:
 - All Store Views
 - Main Website**
 - Main Website Store**
 - Default Store View
 - UK**
 - UK Store View
- Status ***: A dropdown menu with the option 'Active'.

Second Tab: Conditions

You can Select or Set

- Set condition Like you set Catalog Rule
- Set Number of Product which you want to display in Frontend for Product Slider

New Slider

← Back Reset Save and Continue Edit **Save**

It's time to [change your password](#).

Slides to scroll on large

Medium display Settings

- Set Breakpoint which is used for Responsive
- Set Number of Product which show in One Slide at this Breakpoint
- Set Number of Product which Scroll when Click on Prev / Next at this Breakpoint

| Medium display settings | |
|----------------------------|----------------------|
| Breakpoint medium | <input type="text"/> |
| Slides to show on medium | <input type="text"/> |
| Slides to scroll on medium | <input type="text"/> |

Small display Settings

- Set Breakpoint which is used for Responsive
- Set Number of Product which show in One Slide at this Breakpoint
- Set Number of Product which Scroll when Click on Prev / Next at this Breakpoint

| Small display settings | |
|---------------------------|----------------------|
| Breakpoint small | <input type="text"/> |
| Slides to show on small | <input type="text"/> |
| Slides to scroll on small | <input type="text"/> |

3 Step 3:

It look like this in Grid:

MageCaptain Product Slider 🔍 98 👤 admin ▾

[Add New Slider](#)

📘 It's time to [change your password](#).

[Search](#) [Reset Filter](#) 1 records found 20 ▾ per page < 1 of 1 >

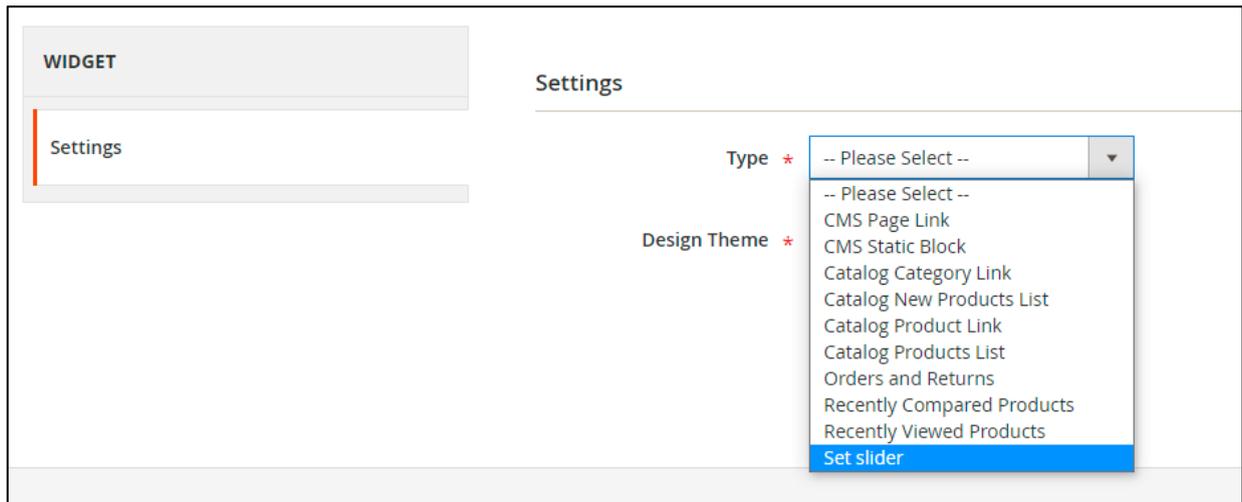

| ID | Slider Title | Store View | Status |
|----|------------------|-----------------|---|
| 1 | Rule base slider | All Store Views | ENABLED |

4 Step 4:

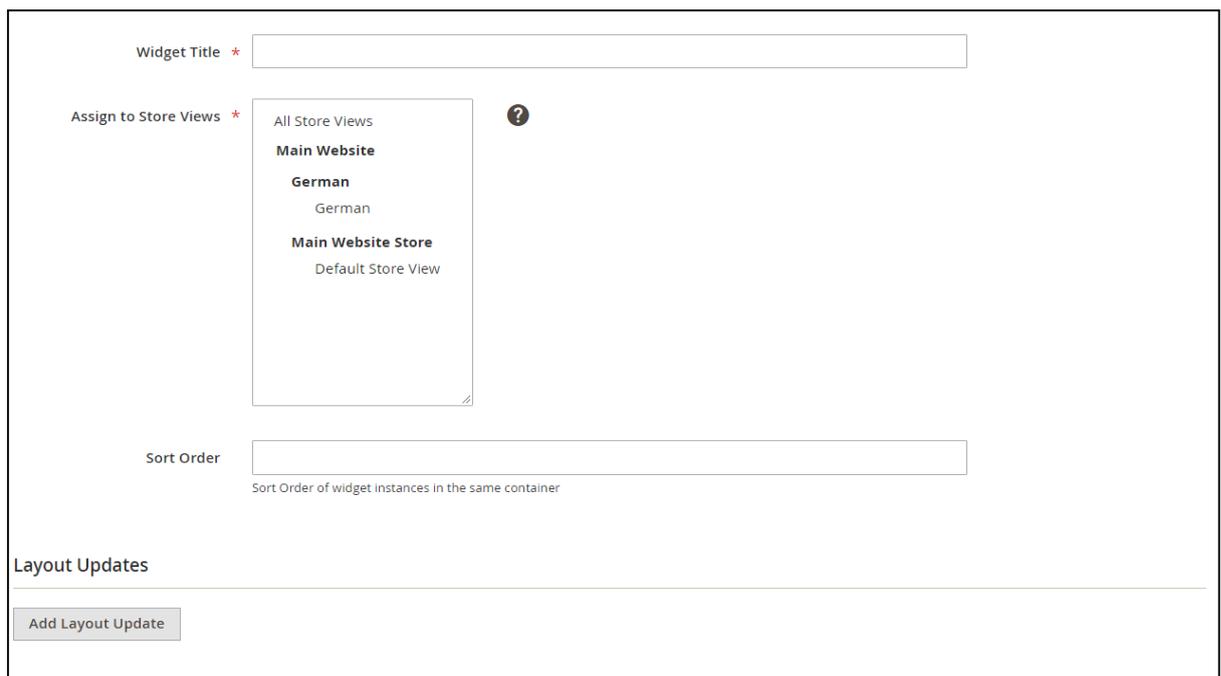

Now Need to Create Widget to Show this Slider in Frontend

Got to Content => Widget => Add Widget

- Settings => Settings => Type => Set Slider (select from dropdown)

- Also Set other Widget Field Like: Widget Title, Assign to Store Views, Layout Updates(where you want to show Product Slider in Frontend)

- Widget Option => Select Slider (which are created in MageCaptain Product Slider)

Select Slider... ✕

Search [Reset Filter](#) 1 records found 20 per page 1 of 1

| ID | Name | Status |
|----|------------------|---------|
| 1 | Rule base slider | Enabled |

5 Step 5:

Frontend it Look Like this as other slider design of your frontend store theme:
