

## Installation Guide:

### 1. Step 1:

- Download Magecaptain\_Core from this GIT link and place inside your Project root/app/code/  
<https://github.com/magecaptain/core>

### 2. Step 2:

- Download Extension and place inside your Project root/app/code/

### 3. Step 3:

- In magento root directory run the following commands using the command line:

```
php bin/magento setup:upgrade  
php bin/magento setup:static-content:deploy
```

### 4. Step 4:

- Login to Magento admin and enable extension at  
Stores=>Configuration=>MageCaptain=> Customer Attributes

### 5. Step 5:

- That's it, you're done.

## Description:

Sometime Online Store Vendor needs Some Additional Info of Buyer or Customer, but it is not easy to Manage Additional Customer Attribute like Product Attribute at Store Vendor End. Default Magento not Provide This Functionality, Magecaptain developed Customer Attributes Extension to Manage Additional Customer Attribute. Using this Extension Store Vendor easily manage Additional Customer Attributes.
