

Installation Guide:

1. Step 1:

- Download Extension and place inside your Project root/app/code/

2. Step 2:

- In magento root directory run the following commands using the command line:

```
php bin/magento setup:upgrade
```

```
php bin/magento setup:static-content:deploy
```

3. Step 3:

- Login to Magento admin and enable extension at Stores=>Configuration=>MageCaptain=> Product Attachment

4. Step 4:

- That's it, you're done.

Description:

To sell complex products you need to provide customers with detailed descriptions to help them find necessary information before making a purchase decision. The extension supports all popular image, document formats. You can easily upload user guides, certificates, licenses, tutorials, price lists and many more. With product attachments, you greatly enhance customers shopping experience. All necessary information is instantly available on the product page, so customers don't need to contact you.

Supported File Format:

- jpg
- jpeg
- gif

- png
- pdf
- csv
- bmp
- txt
- doc
- docx
- xls
- xlsx
- rtf
- ppt
- pptx
- zip
