# Installation Guide:

1. **Step 1:**
   - Download Extension and place inside your Project root/app/code/
2. **Step 2:**
   - In magento root directory run the following commands using the command line:

     php bin/magento setup:upgrade
     php bin/magento setup:static-content:deploy

3. **Step 3:**
   - Enable Extension using this Command:
     php bin/magento module:enable MageCaptain_AnytimeReindex
4. **Step 4:**
   - That's it, you're done.

# Description:

MageCaptain develop Any Time Reindex Extension to helps storekeepers to refresh individual or all lists physically directly from the administrator backend effectively as opposed to running the command line. This Extension permits administrators to Reindex information from the backend whenever without assistance from a Developer or Coder.

# How to Use:

**Admin panel**

⇨ Global Configuration:

Setup Global Configuration this way:
Admin => Menu => Store => Configuration => Magecaptain => Magecaptain Anytime Reindex

## General Setting

**Enable**
[store view]

Yes ▼

Enable extension on frontend

⇨ Reinex from Backend:

Do Reindex from this way:
Admin => Menu => System => Tools => Index Management
Select All or Check option from Grid which you want to Reindex.
